FOREWORD—

The First Edition of *The Historical Register of the Delta Chi Chapter of Delta Kappa Epsilon at Cornell University* was completed and published in 1994 with a print run of five copies. It was based on a *FileExpress* database constructed during the Nineteen-Eighties from a review of the *ΔX Chapter Meeting Minutes* and several published chapter membership directories. A redacted version was released on the Cornell University *eCommons@Cornell* website on 26 March 2010.

This Second Edition of *The Historical Register* was produced following a 2010 review of the Personal Record Blank (PRB) initiation records held by the Delta Kappa Epsilon International Fraternity Headquarters in Ann Arbor MI. The first PRB form found in the ΔKE Headquarters collection was that of Brother Willard Cameron Cool 1916 (ΔX initiate #427, b. 18 August 1891, i. 1 December 1912). This paper-based system continued up until the time when Brother Charles Richard Spaziani, Jr. 1997 was initiated in 1994. Additional resources, e.g. the Cornell University website directory, the Stewart Howe Alumni Service database, and the Social Security Death Index (SSDI) were used to add members initiated during the past two decades and confirm death dates of deceased members. In some cases, back issues of the *Delta Chi Deke* and the *Cornell Alumni Magazine* provided data to resolve names and class years. The list of chapter presidents was updated with the help of many living members who advised the Alumni Historian by e-mail. Refer to the References section for identifications of the documentary sources used.

The old *FileExpress* database was converted into a Microsoft EXCEL™ application and Virtual Basic for Applications (VBA) macros were written to create and format the Roll of Members and Index sections of this document.

The system of assigning ΔX Lineal Registration Numbers began with the chapter's first member, Brother Julius Chambers 1870 (ΔX #1, initiated on 11 February 1870 as the chapter's senior charter member) and continued with duplications and lapses until Brother Marc Joseph Umscheid 1990 (ΔX #1,423, initiated on 23 April 1988). Brothers who were initiated at chapters other than ΔX before matriculating at Cornell were not included in this numbering system. The reader will also note that some of the "unnumbered" names have proven impossible to verify with the sources available. The Alumni Historian has chosen to retain them on the chapter's list to support future inquiries.

Birth dates have been redacted for living members so that only the year of birth is given. A blank in this field indicates that the data is missing from this database.

Social Security Numbers are in the public domain for the deceased and the SSDI provides a useful tool for confirming birthdates and surname spelling. The presence of an SSN on the list indicates that this resource has provided an exact match to the brother's identification data. The phrase "no result" means that the SSDI was interrogated and no match was obtained. This is often the case for brothers who were born or died on foreign soil, or died before these numbers came into common use.

Class Year is a problematical data item. Often the brother's professed class year differs from that published by the University due to missed academic terms, absence for military service or accelerated graduation. The Alumni Historian has attempted to take the University's side of this matter when discrepancies are found, but accessing Cornell's data directly is often impossible.

Expulsion, suspension, censure and resignation were very formal processes in the early years of ΔX. These cases are noted in the roll of members. These unhappy disassociations occurred from time to time in the years following World War II, but records are often vague or nonexistent. The Roll of Members records what is known about these cases.

Notes indicating service in the following war zones are included if data is available.

- Spanish–American War (1898);
- Border War (1910–1918);
- World War I (WWI 28-Jul-1914 to 11-Nov-1918);
- World War II (WWII, 1-Sep-1939 to 2-Sep-1945);
- Cold War (1947–1991);
- Korean War (25-Jun-1950 to 27-Jul-1953);
- Vietnam War (1-Nov-1955 to 30-Apr-1975);
- Persian Gulf War (2-Aug-1990 to – 28-Feb-1991);
- Iraq War (20-Mar-2003 to...); and
- Afghanistan War (7-Oct-2001 to ...).

ROLL OF MEMBERS IN ΔX of ΔKE

The following records are in Class Year order, and within Class Year, by ΔX Registration Number. The line fields are described in left-to-right order.

- Line #1: (1) ΔX Lineal Registration Number, (2) brother's full name, (3) ΔKE Personal Record Blank code ("PRB" if the document was reviewed by the Alumni Historian during the summer of 2010; blank otherwise), (4) ΔKE chapter that initiated the brother if not ΔX, and (5) Cornell University Class Year.
- Line #2: (1) birth date (blank if missing; or in the redacted form, "b. -----YYYY," if the brother is not deceased), (2) initiation date, (3) death date or the notation "deceased" if a death notice was published without the date, (4) Social Security Number if available for deceased members only, and (5) age at death if known.
- Line #3: Significant accomplishments in ΔKE; and
- Line #4: General Significance (war service, business distinction, etc.).

PRESIDENTS OF THE DELTA CHI CHAPTER OF DELTA KAPPA EPSILON

The following table lists the ΔX brothers who have served in the office of Beta (Chapter President). The first column is the ΔX lineal or registration number. The last column provides the date that the brother was elected to office. Data is taken from the transcribed *Chapter Meeting Minutes (CMM) of the Delta Chi Chapter of Delta Kappa Epsilon*, 1870 – 1979. These volumes are in the ΔKE Depository, Cornell University Library, Division of Manuscripts and University Archives.

Notes on the Terms of Chapter Presidents

1. The system for assigning ΔX lineal or registration numbers broke down circa 1990.
2. Estimated election dates after 25 October 1979 have been gleaned from the *Delta Chi Deke* and consultations with brothers.
3. Up until the Nineteen-Seventies elections were scheduled to occur in each of the academic terms, Fall and Spring, and the Beta-elect took office on either the night of election or at the next chapter meeting. Afterwards, elections were scheduled annually, and the Beta-elect took office at a date considerably after the election was settled.

Brother Stephen Philip Reich '95 provided the following explanation:

I'm trying to give Bill some context around how the election cycles worked in the years after 1979. It is my recollection that during the mid-1990's (and onwards indefinitely?) presidents were elected in the fall (typically the fall of their junior year) and officially took over as president at the conclusion of spring

initiation the following spring. They would serve a full year term and then turn the office over at the conclusion of spring initiation their senior year. This arrangement would allow the president-elect a full semester (typically the spring of their junior year) to work with the incumbent president to learn the ropes and prepare for office (i.e. find a good lawyer, just in case). This arrangement also meant that presidents enjoyed a very brief window of time between spring initiation and graduation where they had no formal responsibility in the house and often became perpetrators of the same indiscretions that they had spent the last 12 months policing....

On a final side note, during this period the office of Pledgemaster followed the same election cadence/schedule as Beta.

4. There are several instances of brothers twice elected to the office of Beta. George Edwin Fox '61 was elected to the office of Beta three times: 22 Feb 1960, 23 May 1960 and 21 May 1961.

LIST OF PROGENITORS AND LEGACIES

A member of the Delta Chi Chapter of DKE who at the time of initiation is directly related to an member of Delta Kappa Epsilon, living or deceased, is said to be a legacy. The progenitor is generally the most senior Deke blood relation of that legacy.

The Cornell Deke House has a distinguished tradition of bringing legacies into the Fraternity as clearly evidenced by the following list. Perhaps the most noteworthy instance of this commitment occurred in 1938 when nine of the fifteen men pledged were legacies.¹

Legacy groups are listed in order of progenitor class year and then alphabetically by progenitor last name. Legacies within a group are in class year order. The specified relationship is with respect to the progenitor unless otherwise noted. Question marks (?) indicate some uncertainty or missing data. Names without chapters are brothers in the Delta Chi chapter of Delta Kappa Epsilon.

REQUEST FOR CORRECTIONS

It is inevitable that in a record of this magnitude errors will occur. There are discrepancies amongst the various Δ KE catalogs and databases that necessitated decisions that, in some cases were arbitrary. Readers are invited to forward any and all corrections to the editor.

Consult the annual "Report of the Alumni Historian" in eCommons@Cornell for updates and corrections received after the publication date of this Historical Register. They may be found in the Delta Kappa Epsilon History collection:
